Name and surname:

Telephone No.: 311

2nd

The registered driver undertakes to abide by the rules of the event and premises, both in terms of content and form, and shall at all times follow the instructions given by the security and organization staff during the event.

Drivers are required to take out personal insurance to cover the risks involved in this activity. Current federation licenses will be accepted and shall be submitted together with the declaration form. For motocrossing, only current and officially approved regional or national licenses shall be accepted. For official motor racing competitions, federation licenses will only be accepted when this is provided for in the race programme. Other types of insurance policies may be accepted provided the relevant certificate is submitted as proof of having taken out the insurance. In question covers the risks involved in the activity and that the minimum policy coverage is at least equivalent to that required by MOTORLAND.

Users who do not have a federation license or any other type of insurance to cover the risks associated with the activity are obliged to take out accident insurance. MOTORLAND can assist users in taking out this insurance, the coverage of which is specified in the certificate available to MOTORLAND.

The undersigned, his heirs and other legal representatives shall not hold the organizers liable for any civil or criminal liability arising out of his participation in the event, or for risks and damages of any kind that are not covered by the insurance policies that were taken out, and shall not bring any claims for losses or damages against the organizers, the racing circuit or any other person involved in the organization of the event.

In the event of an accident, the undersigned undertakes to report the accident and the damages or injuries caused within at least 24 hours of the accident occurring. MOTORLAND shall accept no responsibility in this respect unless the accident is reported within the aforementioned deadline.

The undersigned undertakes to prevent third parties from using the vehicle unless they have the prior express consent of the organizer. The organizer hereby informs the driver that it is his sole responsibility to use the officially approved personal safety elements, in perfect condition, required by the relevant sports federations for participation in official races; in particular, helmets, gloves, race suits, boots, head and neck support devices and/or any other items.

The driver warrants that he is aware of the MINIMUM MANDATORY SAFETY RULES, which have been expressly communicated to him, such as not getting out of the vehicle or walking on the circuit for any reason in the case of a breakdown or/and accident, he should get the vehicle off the track (ideally by himself, and without getting out of the vehicle) and make it suitable (to the organizer's staff) the driver and/or all persons accompanying him should never cross the pitlane line on foot; persons not authorized by the organizer, persons under the age of 16 years (other than drivers) or past should under no circumstances enter the pitlane; never, under any circumstances, drive in the opposite direction when a yellow flag is waved; make the phone, never, under any circumstances, drive in the opposite direction; never use any equipment (such as soldering tools) or any other flammable devices on the premises; it is expressly prohibited to drive unauthorised or uninsured vehicles in the paddock, or to open bicycles, scooters (whether motorised or not); smoking in or around the boxes, pitlane or race track areas is expressly prohibited.

For the good of all those persons involved in the event, in general and the driver in particular, the organizer of the event warns the latter against the consumption, even several hours prior to the event, of stimulants, medicinal products, beverages and/or any other substance that might affect the behaviour of the driver (or, when applicable, his companion) or his ability to drive the vehicle. He shall refrain from driving the vehicle in the event that he has taken any of these substances. Driving a vehicle, whether in the aforementioned circumstances or in normal physical and mental conditions, is an activity that carries a risk and may therefore give rise to accidents through the fault of the driver or third parties, which may result in serious injuries and even death.

Accordingly, the undersigned is fully aware of the risks and possible consequences of his participation in the activity and accepts, of his own free will, full responsibility for these risks, improper or misuse use of the vehicle, at the discretion of the organizer, shall be grounds for expulsion from the event and the driver shall not be entitled to any refund of the registration fee whatsoever.

The purpose of this event is to improve driver safety by driving in a closed circuit in controlled safety conditions, without the adverse racing conditions you would find on a road. The organizer expressly prohibits races and competition within this event. Failure to comply with this rule shall be grounds for expulsion from the event.

I agree with the terms described above.
